

**Think long-term care
insurance is too expensive?
Try not having it.**

You can lose your savings, retirement, business assets — even your home — trying to pay for care you'll need after a debilitating injury or illness. Fact is, long-term care can cost up to \$70,000 a year and it's not covered by health insurance, disability, or Medicare.

Long-term care insurance is one of several ways you can cover these costs. You've worked hard to achieve financial security. Plan now so the unexpected doesn't take that away.

Visit OwnYourFutureTexas.org to learn how to protect your family from the expense of long-term care.

The Texas Long-Term Care Partnership was created by the Texas Legislature to provide information and tools you need to plan for long-term care.
